8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. Ragi is being reaped in some parts of the District.

Standing crops.—Avare, togari, jola, groundnut, paddy, horsegram and sugarcane are fairly good.

10. Coolies find sufficient labour.

11. Cattle are reported to be generally healthy. Water and fodder are available.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Vaisakhy paddy sown in some villages of Sidlaghatta Taluk.

Potato is being sown in some villages of Chikballapur Taluk.

(2) *Standing crops.*—Avare, thogari, horsegram, groundnut, sugarcane and punaji paddy are reported to be in good condition.

(3) *Crops harvested.*—Ragi, groundnut, same and haraka are being harvested.

10. Prospects of the season are fair. Black-quarter is prevailing in Kumbarahally village in Siddlaghatta Taluk. Preventive measures are taken. Cattle are healthy in other taluks. Public health is generally good.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Vaisakhi paddy in parts of Pavagada and Tumkur Taluks.

Standing crops.—Ragi, avare, thogari, navane, groundnut, save, paddy and sugarcane are all reported to be in good condition.

Crops harvested.—Ragi, haraka, save, groundnut and navane in all parts of the district and paddy in parts of Pavagada Taluk.

Public Health.—Public health is generally good except for the prevalence of small-pox in Volluru, Byadarakere, Kamanadurga, Meenakuntahalli and Pavagada in Pavagada Taluk. Preventive measures are adopted to check the spread of the disease. A suspected case of Cholera has been reported at Kyathsandra Village in Tumkur Taluk and necessary needful action is reported to have been taken by the concerned department. Rat falls are reported at Thammadihalli in Chiknaikanahalli Taluk.

10. Fair in general.

11. Cattle are reported to be generally healthy except for the prevalence of black-quarter at Kodigihalli in Gubbi Taluk. Needful action is reported to have been taken to check the spread of the disease. Water and fodder are available. Labour is available for cooly classes.

MYSORE.

8 It is reported that the markets are normally well supplied throughout the District.

Seeds sown.—Nil.

9. *Standing crops.*—Such as paddy, ragi, avare, castor, thogari, horsegram and sugarcane are reported to be fairly in good condition. But the pest attack on ragi crop in some parts of Yelandur Taluk and on paddy under Vijayapur Tank in Gundlupet Taluk is still persisting and causing damage. Agricultural Department are taking necessary measures to check its spread.

Crops harvested.—It is reported that ragi is being harvested in Mysore, Chamarajanagar, Gundlupet, Nanjangud and Krishnarajanagar Taluks and thogari and horsegram in Gundlupet and Krishnarajanagar Taluks.

10. (1) Prospects of the season are fair.

(2) There was no rainfall in any part of the District during the week.

(3) The cooly and agricultural classes are finding sufficient employment throughout the District.

(4) Sufficient quantities of foodgrains are made available throughout the District.

(5) Public Health is generally good except for the prevalence of small-pox in a few villages of Chamarajanagar and Yelandur Taluks. Necessary preventive measures are being taken to check the spread of the epidemic.

11. Cattle are reported to be generally healthy. Water and fodder are fairly available throughout the District.

MANDYA.

8. Well supplied.

9. The condition of standing crops: sugarcane in the V. C. area; paddy and ragi is reported to be good in all the Taluks. Paddy is being harvested in Srirangapattana and Pandavapura taluks. The harvest of ragi is nearly completed in all the taluks.

10. Prospects of the season is reported to be good.

11. The Public Health is reported to be good in all the taluks. Cattle are reported to be generally healthy. Fodder and water are available in sufficient quantities.

HASSAN.

8. Well supplied.

9. The standing crops such as paddy, ragi, sugarcane etc., are in good condition. No damage has been done to crops. Ragi is being harvested in almost all the Taluks. Paddy is being harvested in Alur and Belur Taluks.

10. There had been sufficient rain.

11. Cattle were generally healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Paddy, jola, cotton horsegram were being harvested. The standing crops of paddy, sugarcane, jola, cotton and horsegram were reported to be in good condition.

10. Prospect of the season was generally good. There was prevalence of small-pox in Malligenahalli Village, Honnali Taluk. As a result a death occurred. Preventive measures are reported to have been taken.

11. Cattle were healthy.

Water and Fodder were available.

CHIKMAGALUR.

8. Markets are fairly well supplied.

9. (1) *Standing crops.*—Gram and menthya and garlic sown in Chikmagalur Taluk. Paddy, sugarcane, ragi, jola, avare, coriander and cotton in Chikmagalur Taluk; avare, thogari, cotton, castor, coriander, horsegram, bengalgram, summer jola and sugarcane are the standing crops in Kadur Taluk; paddy, ragi, jola, horsegram, avare, sugarcane, and other minor millets in Tarikere Taluk; paddy in Koppa, Sringeri and Mudgere Taluks; sugarcane and paddy in Narasimharajapura are the standing crops, which are in good condition. Paddy, ragi, jola sugarcane, chillies in Chikmagalur; horsegram, chillies, cotton, sugarcane and paddy in Kadur Taluk; paddy, ragi, jola crops in Tarikere Taluk; paddy in Koppa, Mudgere and Sringeri; sugarcane and paddy in Narasimharajapura Taluk are being harvested. The recent rains had an adverse effect on areca crops in Sringeri.

10. Water, fodder and labour are available throughout the District. Public Health is generally good. Small-pox is reported to be prevailing at Handi Village in Lingadahalli Hobli in Tarikere Taluk and the Health authorities are addressed to take immediate action for the prevention against the spread of the disease.

11. Cattle are reported to be generally healthy in all parts of the District including Koppa and Mudigere Taluks where some cattle diseases were reported during the preceding two weeks and Veterinary authorities had been addressed to take necessary action in the matter.

8. Markets are reported to be well supplied excepting controlled commodities.

9. *Sowing.*—Sowing of sugarcane in Hiriyur Taluk, transplantation of paddy in some parts of Chellakere Taluk are reported to be in progress.

Standing Crops.—Bili jola and cotton in Chitaldrug Taluk; paddy in Chellakere Taluk; navane, thogari bilijola, cotton, horsegram and groundnuts in Holalkere Taluk; cotton and jola in Davangere Taluk; cotton, jola, greengram and horsegram in Harihar Taluk; cotton and jola in Jagalur Taluk, are reported to be in good condition.

Harvesting.—Ragi and navane in Chitaldrug Taluk; sugarcane, ragi and paddy in Hiriyur Taluk; jola, ragi and in horsegram in Harihar Taluk; jola, thogari and horsegram Holalkere Taluk; a small quantity of paddy in Molakalmuru Taluk; and ragi in Hosadurga Taluk are reported to be under progress.

11. *Cattle.*—Cattle are reported to be generally healthy throughout the District. But it is reported that 35 sheep died in Hiriyur Taluk as a result of an outbreak of some contagious disease. The Veterinary Department has been apprised of this.

Fodder.—Fodder is available throughout the District.

Water.—Water is available both for men and cattle throughout the District.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Bangalore,
Dated 19th December 1950.

V. VEDAVYAS ACHARYA,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 7TH DECEMBER 1950.

A total of 43 attacks with 24 deaths from Plague was returned from 22 villages, in 13 taluks, in 5 districts during the week against 34 attacks with 12 deaths in the previous week. Cities of Bangalore, Mysore and Kolar Gold Field Area reported free from Plague. Comparative figures for the corresponding week in 1949 and 1948 were 24 attacks with 13 deaths and 67 attacks with 26 deaths, respectively.

A total of 21 attacks with 6 deaths from Small-pox were reported from Davangere Gudibanda and from Bangalore North, Bagepalli, Chamarajanagar, Malavalli and Shimoga Taluks.

Fourteen attacks with 5 deaths from Cholera were reported from Bangalore North, Bangalore South, Bangarpet and Kankanhalli Taluks.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 190 (55 in hospitals) for 7 days representing a calculated death-rate of 19·7 (14·0 excluding hospital deaths) per mille of population (annual basis) as against 27·5 for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 7 under Other Fevers, 25 under Dysentery and Diarrhœa and 157 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 73 (25 in hospitals) for 7 days representing a calculated death-rate of 19·8 (13·0 excluding hospital deaths) per mille of population (annual basis) as against 18·7, for the corresponding week of last year. Classified according to causes, the deaths were: Malaria 1, Other Fevers 9, Dysentery and Diarrhœa 4 and All Other Causes 59. The reported mortality was low.

There were 51 deaths (14 in hospitals) for 7 days from all causes in Kolar Gold Field Area equivalent to a calculated death-rate of 14·7 (10·7 excluding hospital deaths) per mille of population (annual basis) as against 11·0 for the corresponding week of last year. Classified according to causes the deaths numbered 2 under Malaria, 4 under Other Fevers, 8 under Dysentery and Diarrhœa and 37 under All Other Causes. The reported mortality was very low.

N. V. SIDDALINGAPPA,
For *Director*.

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY IN MYSORE, BANGALORE.

Notification dated 12th December 1950.

(HEALTH OF LIVE-STOCK DURING NOVEMBER 1950).

In their order of severity, outbreaks of rinderpest, black-quarter, anthrax, hæmorrhagic-septicæmia, foot and mouth, contagious-goat-pleuro-pneumonia, rabies, sheep-pox and ranikhet were encountered in the State during November 1950. Altogether 217 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 292 villages during the previous month. The number of outbreaks was highest in Kolar, Chitaldrug and Mysore Districts, while Mandya, Shimoga and Hassan Districts were least affected. These diseases accounted for 755 attacks, of which 480 succumbed as against 1,409 attacks and 1,062 deaths during the previous month. The departmental staff conducted 22,240 preventive inoculations and vaccinations against all the above diseases except foot and mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against foot and mouth disease.

Prevalence of rinderpest among sheep and goats, was reported from Holalkere Taluk accounting for 50 attacks of which 30 succumbed. Prompt measures of control were undertaken by the Department to check its spread and 970 cattle and 2,730 sheep and goats in the infected villages and 16,275 cattle and 3,093 sheep and goats in the neighbouring 52 villages extending over a radius of three miles were protected against the disease. The disease appeared to be well under control at the end of the month under report.

Prevalence of an obscure disease akin to gastro-entritis among cattle and buffaloes in Hassan and Chikmagalur Districts was reported during the month. The research staff of the Department was promptly deputed to investigate its occurrence and during the month they have protected 929 animals in these districts against this disease.

Diseases caused by internal parasites were reported from 93 villages resulting in 62 deaths, as against 96 villages accounting for 73 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 4,162 animals, as against 6,380 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.

P. M. NARAYANASWAMY NAIDU,
7347 *Director*.
